--- SHORT SKIP ---

From time to time we have all read articles in our ham radio magazines and have been referred to past articles for more info. So where do you find past issues of ham mags? Surprise ! We have a " gold mine " of past issues of 73, CQ, and QST's in our library. Our Chief Librarian Perry, W8AU, is just waiting to assist you in your search. He helped me and he'll help you too. Thanks Perry !

Ya know Bunkey, I always knew that Perry guy was good for something ! (HI)

JUNE MEETING

The meeting for the month of June will be held on June 6th, 2008 at 8:00 PM at the Massillon Senior Center in downtown Massillon.

At the meeting we will "finish" plans for this year's Field Day activities. Much is to be done before hand to make it a success. As in past years we will meet at Petro's Park at 9:00 AM, June 28th to begin set - up with operations beginning at 2:00 PM and running for 24 straight hours ! We do want to stress that the event will be a FUN time for everyone! Everyone who wants to operate will be given the chance.

Please do not forget that the evening meal is also a covered dish event. The club will supply the meat, drinks, and paper plates & forks (etc.) . So clear your calendars & plan on attending so you won't miss any of the "action" !

JUNE PROGRAM

This months program will be presented by Scott - N3JJT. It will be on "Radio in a box". Now you know as much as I do now about the presentation. I'm sure it will be interesting. The program will be presented after the meeting.

A special thanks to KA8ZQH - Rich - for his very interesting presentation of Radio Controlled Aircraft, Boats and Helicopters. Even if I did have to "goat" him into flying his "chopper", and no one needed a "crash helmet", hi hi.

**Thanks again everyone, de
KA8FTS ->(ô¿ô)<**

MARC MINUTES

May 2nd, 2008

The Massillon Amateur Radio Club meeting was held at the Massillon Senior Center with 34 members and guests present. All officers present and accounted for. MARC President Scott N3JJT opened the meeting at 8:00 P.M. The Pledge of Allegiance was given and a round of introductions was made.

Motion made by Rich KA8ZQH and seconded by Byron KF8UN to accept the minutes as printed in the Feedback. Motion Passed.

Ann gave the treasures report.

Committees

Classes – There are four people in the Technician class. There is just one more Tech class before the exams. The code class has two in the speed progression and will continue as long as there is interest..

V.E. – Next VE Exam session will be May 10th at the E.O.C.

Fox – Five people found the Fox on April 19th located in Lincoln Park. The next Fox hunt is scheduled for May 10th, 1:00 pm at Wampler Park. This is in conjunction with CQ Magazine's Fox Hunting weekend. There will be a picnic so bring a dish. There will be another Fox hunt on May 31st 10 – 1.

Old Business

Additional funding discussion – More information is needed for CC's Pizza fund raising. We have information about grants through Walmart, Sams Club.

Maps Special Event – Maps has another new callsign. It is N8AIR. See Gary WC8W if you want to operate the special event in August.

MS Walk – 4/26 There were 13 ham volunteers and over 600 walkers. Some comm. Problems with the repeater during the walk.

New Business

There are a couple of changes in the Field Day rules that were gone over. Also assigned some volunteers to different committees.

Mike KD8ENV made a motion and seconded by Rex KD8ELX to charge anybody caught talking without having the floor a dollar to the new radio fund. Motion failed 17 to 16.

Rich KA8ZQH Gave a very interesting program about RC vehicles.

Rich KA8ZQH also won the 50/50 drawing for \$19.

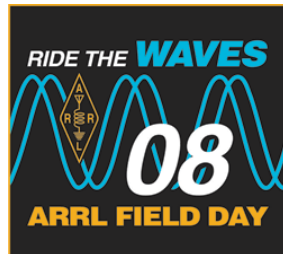

Minutes by your Secretary Dan N8DZM

Volunteers Needed for Tour de Cure

The Summit County ARES is currently asking for volunteers to provide communications support for the Diabetes Tour de Cure 2007 Ride held on Sunday, June 8th. The Annual American Diabetes Association Tour de Cure bike ride starts and ends at Blossom Music Center on Steels Corners Road in Cuyahoga Falls. Approximately 55 volunteers are needed. Assembly will be at 6:30 AM and most positions will need to be covered until about 3:00 PM. A mobile two meter radio is requested. Summit Co ARES provided several volunteers for last years Hall of Fame Parade and we would like to return the favor. This is also a great way to keep your emergency communications skills sharp. A link is provided on their website to sign up for this event. A direct link is posted on the Stark Co ARES website. Additional information is available by contacting communications coordinator Bruce Brown - KC8RKS at 330-351-8156 or by email to kc8rks@yahoo.com.

.. It's Field Day Time ..

Yes, before we know it we will all be gathering at Petros Park to once again take part in ARRL Field Day. Webster defines Field Day as a "day devoted to outdoor sports and athletic competition, a time of extraordinary pleasure or opportunity." We definitely agree.

The weekend of June 28 & 29 has been designated as this year Field Day participation exercise and we will once again hold our annual event at the great Petros Park in Perry Township starting with setup Saturday morning at about 9:00 AM.

This is intended as a full club participation event and I hope to see many of you there. We have been fortunate for the past several years to have a very successful and enjoyable event and may club members will work very hard to make sure this year is just as great. Field Day weekend is a great way to understand nearly every aspect of Amateur Radio from emergency communications to contesting. One of our main goals is to make sure everyone gets a chance to operate regardless of their experience level. Any of our members will be happy to help you with operating over the weekend. You don't have to be a first rate contest operator or high speed CW Op to participate. The main goal is to come out and enjoy our event and learn about operating.

The last several years we have made it a point to concentrate on the educational aspects of Field Day. By the time the event is over Sunday afternoon, we hope you will have learned something new about the hobby. Then we can claim we have had

a truly successful event regardless of the score.

And Oh Yes, did I mention the fun? That is the most important part of Field Day, although some would say the annual Field Day Feast is the best part!. Learning setup, assembling antenna's, operating, logging are all part of the experience that is Field Day. I'm sure we will throw in a few other events like our annual Field Day Fox Hunt and who knows what else.

Speaking of logging, this year we will again be using the new Field Day logging program over the weekend. The old program we had been using while a very nice and easy program to use did cause us to lose some contacts during previous years operating. The program we will be using this year should help to eliminate this especially since we will be using the clubs new laptop computers. If we have some time after the June meeting we will demonstrate the program and how to operate it. Hopefully this will make it a bit easier come Field Day weekend.

.. MARC at MS Walk ..

Saturday, April 26th marked the official opening of the 2008 public service season as members of the MARC again assisted with the annual Spring MS Walk in Massillon at the Massillon Recreation Center. Sponsored by the National Multiple Sclerosis

Society communications volunteers staffed rest stops and provided safety and support communications for this years event. Communications was also maintained between the transfer busses and the Rec Center. EComm 1, the clubs Emergency Communications Trailer was stationed at the Rec Center and provided Net Control operations for the Walk. Great weather made for a very well attended Walk with over 600 registrants this year. Local MS Walk Coordinator Dick Kulick expressed his sincere appreciation to all of the amateur volunteers for their continued assistance year after year. Additionally, we would like to thank Canton ARC member Dale Lamm, NX8J, an adult leader of a Boy Scouts of America Venturing Crew for his assistance along with several scouts. They provided great assistance to our communications as well as assistance to many walkers of the event, especially several in wheelchairs. The overall event went very well with only a few needing transport back to the Rec Center.

The following volunteers assisted with this year's MS Walk. Terry Russ - N8ATZ, Jim Farriss - WA8GXM, Don Finley - W8DEF, Linda Finley - K8MOO, Gary Kline - WC8W, Tom Phelps - W8TNP, Peggy Phelps - W8PNT, Scott McGill - KC8ZCS, Sarah McGill - KC8ZCT, Tom Gill - KC8QOD, Igor Nikishin - K8INN, Joe Herrick - WD8BGW (in his role as radio operator and Captain of the Massillon Police Department), Scott McCamish - N3JJT, Wade Huthmacher - WD8MIU and Dale Lamm - NX8J.

.. ARES Spring Meeting ..

The Stark County ARES Spring meeting will be held on Thursday, June 12th at the Stark County EOC Office on Route 62 in Canton. The meeting will be held from 7:00 to 8:30 PM. An agenda is currently being developed but will include an update on topics discussed during our last meeting. The meeting is open to all those interested in ARES activities here in Stark County. Contact me if you have any questions or with items you would like to discuss.

**73's for now, Catch you later..
De Terry – N8ATZ**

TUSCO CLUB PRESIDENT

Friends,

I have been asked to inform you of the passing of our Tusco Amateur Radio Club president, Jim Foote, k8ksn. Jim became a silent key this morning May 9, 2008.

Calling hours are Tuesday May 13, 2008 in the Gnadenhutzen Methodist Church 5 to 8 PM. The funeral will be at the same location on Wednesday May 14, 2008 at 11 AM.

Memorial Contributions may be made to the Tusco Amateur Radio Club or to the Gnadenhutzen 4th of July fireworks committee.

Jim will be severely missed.

Larry wa8jle

VE EXAM MAY 10 SESSION

Canton, On May 10th, the Canton / Massillon Amateur Radio Clubs held a VE session. We had 7 people show up to take exams. We are glad to announce that four were successful in obtaining a new license or an upgrade. Three people unfortunately left without obtaining anything.

Three of the new licensee's were from the Massillon Amateur Radio Club Technician Class. This year's class had four participants but due to a previous commitment one person did not show up to take the exam. Two of the three obtained their Technician Class Licenses and one went on to get his General Class license ! As per agreement we would like to welcome new Massillon Amateur Radio Club members Michael Demko, Clinton Oh, Allan (AI) Kalbfell North Canton Oh, and Tim Kalbfel Brewster, Oh. (As of this writing, call - signs are unknown) .

The other successful candidate was our own Ray Mahorney WA4WGA, who upgraded to Amateur Extra Class. Ray who is totally blind continues to be remarkable in his endeavors. Ray as you know was instrumental in helping with the April Program on D- Star operations.

We congratulate all of the successful candidates for getting "that all important " first license and congratulations to Ray for his upgrade. We hope that the people who weren't so lucky that they continue to study for the new license or upgrade. The next session will be held at the Massillon Senior Center on August 30th, 2008 again at 9:00 AM with doors open at 8:00 AM.

THE PREZ SEZ

Well, here we go again.....June is upon us, and that means Field Day! I know alot of us look forward to Field Day, I know I do! Everyone knows the amount of prep work that goes along with Field Day! So, I appreciate all of the folks that come out to the site and set up all the antennas, the trailer, the snacks and the food that comes along with the big weekend! So, like always, set up will take place on Saturday morning the 28th at 0900, with transmitting starting at 1400(2 o'clock for you non-24 hour folks)! I am looking forward to seeing everyone out at the site. Oh, yeah, the site is Petros park in Perry, right across from Faircrest Steel! We normally have dinner around 6 on Saturday, so bring those yummie side dishes for everyone to share,(Gene, make sure you bring those famous sticky buns!) I am inviting anyone to stay all night and operate, and we hope that Igor will be there(as long as Stephenie holds off on her birth until after the weekend, or else I may have to deliver the baby!) Not much else to report from here, and hope that everyone has things in order around their yards, and their fertilizer down! Be safe, and hope to see everyone at the next meeting, (which by the way is Friday June 6th 8 o'clock!). Lock in your plans to be at Field Day 2008! From the desk of your Prez.....

DE N3JJT.....73

We had a great time at our FoxHunt PicNic which was held at Wampler Park in Massillon. The following MARC Members were present for the picnic: N3JJT, and his First Lady, Kathy, Mike, WA8MKH, and his wife Carol, KB8IMH, Mike, KD8ENV, Dan, our Secretary, N8DZM, Tom, KC8QOD, and his wife Denise, and their daughter Erin,, Tom and Peggy, W8TNP, W8PNT, Wade, WD8MIU, and later on we had a special visit from our VP, Rodger, KA8FTS, and Helen, KC8ZWG. The following folks went hunting after our Prez hid the Foxes, I hid 2 this time. Tom and Peggy, Mike, (KD8ENV), Dan, and Tom, KC8QOD, and Denise. Mike came back early due some equipment malfunction, but if you ask him, he said he had a short between the ears. Tom and Peggy returned without locating, and Tom and Dan found both Foxes. Tom had the best time, with 1 hour and 52 minutes, and Dan with 2 hours and 4 minutes! According to Dan, Tom beat him by a ground hog's length plus his tail! We had some good vittles, and great fellowship! We are looking forward to the next hunt which will be Saturday, May 31st, from 10 am till 1 pm. Again, thanks to those that came out to the hunt! See ya next time!

DE..N3JJT, Foxmiester 1

In the picture above are the fox hunters (back row L-R) Mike WA8MKH, Carol KB8IMH, Tom W8TNP and Mike KD8ENV. Front row (L-R) Tom KC8QOD, Dan N8DZM, and Peggy W8PNT. Missing from the picture is Wade WD8MIU, Rodger KA8FTS and of course the picture "taker" the First lady; Kathy (Hey Scott, I thought the First Lady's name was Barbra and she was busy with he daughter Jenna's wedding?) .

In the picture above it proves that you can't fox hunt on an empty stomach. You need that extra "fox fuel" to go the extra mile ! Pictured are MARC members (foreground) Mike & Carol, Tom and Dan.

AN AMATEUR

Over the years there are similar common questions asked by new amateur radio operators. In the 2006 reprinted edition of the **ARRL 1926 Radio Amateur's Handbook**, Chapter 1, What Is An Amateur ?, are two paragraphs that may provide some answers and some history.

“In many places it is possible to join a radio club and to enjoy active membership. The exchange of information between club members is valuable. By talks and demonstrations the club provides interesting winter activities. Through code classes, beginners are helped in getting started as “good” operators. A club library containing the books best suited to the members is an additional asset to the radio enthusiast who does not have too much money to spend on his hobby. In the summer, social activities of a different nature keep the members together for some enjoyable times. Picnics, demonstrations with portable equipment, and athletic contests keep up the interest then. Many such clubs are affiliated with the League and receive monthly bulletins from the League. On request, information on organizing a club and becoming affiliated is supplied from League Headquarters.”

“Amateur radio offers the only means of free communication with our fellows who are outside the range of the human voice. When we have become familiar with some of the simple facts about this fascinating hobby we will want to get on the air and talk by wireless with other men who have stations similar to ours. This we can do just as soon as our station is in actual operation. Cards will be received from many places where our signals have been heard. Correspondence with folks we have met by radio will result. New friendships will be made. We will take pride in our station and its records.”

Those two paragraphs are similar today. In earlier times, amateur radio was obviously a hobby for mostly technical persons. Since that time, amateur radio has changed into a family hobby with wives and children obtaining higher classes of license. Also stated is the purpose of radio clubs and activity throughout the year. One common word then and now is picnics and social activities. Do you suppose their picnic was like our field day?

Club member participation in events, (all age groups and classes of license), will keep the radio club healthy. Amateur radio today has more modes of operation and choices. There are now more groups within the club that have various radio-related interests. It takes time for new members to learn the various subjects and decide their area of interest. It may take a year or two to understand club operations. Notice the word “library” in 1926. Then, and now, books are a great way to learn.

73 de Mike, WA8MKH
